Tally Prime

THE EVERYDAY HEADACHE

Many movements. Many invoices. Too much manual work.

1 customer + **Your filters** Period · Container type (1x20, 2x20, 1x40 ...) · Movement type (Export, Import, Empty ...) = **Invoices, fast** with the container annexure behind each one

Manual calculation, corrections, printing and report preparation take a lot of time and effort. With this module, TallyPrime picks up the matching load sheets for the customer and creates the invoices for you.

WHAT YOU GET

From the first movement to the final bill

LOAD SHEET

- Capture **vehicle no., container details, source-destination** and other movement details.
- Add the **extra cost of each movement** (for example diesel) and see the **final profitability** of every movement in the Load Sheet report.

AUTO-INVOICING

- **Super-fast invoice creation** for multiple load sheets of the selected customer.
- Create invoices for a **selected period**, **container type** (1x20, 2x20, 1x40 etc.) or **movement type** (Export, Import, Loaded, Empty, Dscan etc.).

REPORTS

- **Daily Load Sheet report** with multiple filters.
- **Auto-billing report** showing only the unbilled load sheets.
- **Annexure** print or export with the container movement details of every load sheet used for an invoice.

BUSINESS BENEFITS

Save time and effort
No more manual calculation, correction, printing or report preparation.

Changes made simpler
Any change in a load sheet is easier to handle, thanks to auto-invoicing.

Quick reports and billing
Removes a lot of hassles.

Easy reconciliation
Reconcile your accounts with the movement details.

AUTOMATION FOR CONTAINER BUSINESSES

Enter once. TallyPrime does the billing.

Suited for

- Container transporters
- CFS & ICD operators
- Container yards & depots
- Logistics companies

1 Record the movement

A truck moves a 1x20 export container. Enter the vehicle, container, route and cost in one load sheet.

2 Bill in bulk

Pick the customer, then the period, container type or movement type. TallyPrime creates the invoices from the matching load sheets.

3 Print and reconcile

Print the bill with its annexure, or export the annexure alone, and match your accounts with the movement details.

SEE IT IN TALLYPRIME
